Tom Byers

Professor of Management Science and Engineering, Stanford University

At Stanford since 1995, Professor Tom Byers focuses on education regarding high-growth entrepreneurship and technology innovation. He is the first holder of the *Entrepreneurship Professorship* endowed chair in the School of Engineering, and is also a *Bass University Fellow in Undergraduate Education*. He has been a faculty director since the inception of the *Stanford Technology Ventures Program* (STVP), which serves as the entrepreneurship center for the engineering school. STVP includes the Mayfield Fellows work/study program for undergraduates and the Entrepreneurship Corner (ECorner) collection of thought leader videos. He is a principal investigator and the director of the *Epicenter*, which is funded by the National Science Foundation to stimulate entrepreneurship education at all USA engineering and science colleges. He is the co-author of a textbook called *Technology Ventures: From Idea to Enterprise* that is published by McGraw-Hill. He is a past recipient of the prestigious Gordon Prize by the National Academy of Engineering in the USA and Stanford University's Gores Award, which is its highest honor for excellence in teaching. He has been a member of advisory boards at Harvard Business School, UC Berkeley, World Economic Forum, Conservation International, and several private enterprises. Tom was executive vice president and general manager of Symantec Corporation during its formation, and started his business career at Accenture. Tom holds a BS in Industrial Engineering and Operations Research and an MBA from UC Berkeley. He also earned a PhD in Business Administration (Management Science) at UC Berkeley.
