# 1st Workshop on Graph Theory, Combinatorics & Application (GTCA 2019)
October 9-10, 2019

United Arab Emirates University, Al Ain, UAE

Graph theory and combinatorics are closely related to many mathematical subjects, such as, topology, geometry and number theory and have a lot of applications in applied sciences, engineering and optimization problems. The workshop focuses on all aspects of graph theory, combinatorics and their applications. It dedicates to creating a platform for exchanging the latest research results; sharing the advanced research methods and latest trends in these areas and to build & develop further collaborations.

Registration & Deadlines:
• There is no registration fee. However, all participants needs to register by sending email at **m.imran658@uaeu.ac.ae**
• Registration & Submission of Abstract deadline: **September 20, 2019**. Send abstract (both LATEX and PDF) to **m.imran658@uaeu.ac.ae**

Organizing Committee
• Muhammad Imran (Chair)
• Mustapha Aouchiche
• Adama Diene
• Ho Hon Leung

Keynote Speakers:
* Prof. Volkmar Welker (Philipps-Universität Marburg, Germany)

* Prof. Riste Skrekovski (University of Ljubljana, Slovenia)

* Prof. Ismael G. Yero (Universidad de Cadiz, Spain)

Department of Mathematical Sciences, P.O. Box 15551, Al Ain, U.A.E., Tel: +971 3 713 6145/6389
