Innovations

15th International Conference on Innovations in Information Technology
Nov 14 – 15, 2023. UAE

Call For Student Posters

The IIT'23 Student Participation Committee invites all undergraduate and graduate students to submit an extended (2 pages max.) abstract to display a poster at the IIT'23 conference. The presentation should embrace the conference theme, "Innovations in Information Technology".

PURPOSE

The primary objective of the Student Poster session is to provide a platform for students to exhibit their exceptional AI-based projects and ideas, and enhance their visual, written, and oral communication skills in a professional conference setting. This session aims to facilitate knowledge-sharing among students and faculty from various institutions, increase the visibility of student research and project work, and acknowledge excellence in student projects.

SUBMISSION: Extended abstracts should be directed to Dr. Rawhi Al Rae at rawhi@uaeu.ac.ae. All students are encouraged to review their abstracts with their faculty advisors prior to submission. All accepted abstracts will be published in the conference proceedings (but abstracts will not be included in IEEE Xplore and/or indexed in Scopus).

IMPORTANT DATES

Student Poster Submission September 30, 2023

Notification of Student Poster acceptance October 10, 2023

Final Student Poster material October 20, 2023

BEST STUDENT POSTER AWARDS

There will be a competition for best student poster award at the conference. This award will be given to recognize student excellence in research and presentation. All accepted posters will be eligible for nomination for this award providing they meet the requirements and guidelines for student poster session as described on the website. The presentations should consist of well-prepared materials about the work, posted on a designated board.

It is required that an author should be registered for the conference and in attendance to present details and answer questions during the designated poster session time. Since the award will be made at the session, it is recommended that the authors be present for the majority of the session. A Poster Award Committee will review all of the extended abstracts and the posters. Selections will mainly be based on the level of the innovation, research, final output, quality of the poster, and clarity of the presentation.
